

Facts and Interpretations from H. Reg McDaniel, M.D. and Candace F. McDaniel, D.O.
This mixture of micronutrients returns to the modern diet vital nutrients once found in the family garden and orchard in a more agrarian society. This is a modern application of ancient nutritional traditions and knowledge of nature. Micronutrients added to the diet are not a treatment and improved nutrition is not an intervention that cures disease. Nutrients and elements supplied in the diet do nothing directly as an intervention to improve health. They are utilized as units to assemble the food sourced micronutrients as molecular parts to assemble complex compounds that have natural structure and function properties. The genes are coded instructions that control cellular synthesis using elements and nutrient molecules to assemble bioactive structure/function compounds that conduct the biochemistry of life. Molecular structure determines the function of bioactive compounds and this requires a supply of specific nutrients to be present in the diet to properly make such substances. Such normal functions include host defense, repair, recovery, structural restitution and homeostasis, i.e. balance and regulation between all cells that support health and improve quality of life. No additional representations are made.[†]

No single thread makes up the cloth of good health.
Seek pure air, clean water, optimal nutrition with variety, regular exercise of the mind and body that is balanced with rest and relaxation. Avoid toxic substances, bad habits and practices that are threats to good health. There is a vital interaction between mind, body and spirit.
Never take this supplement on an empty spirit.

DIRECTIONS:
Mix 1 teaspoon in water and drink with meals, or as directed by your health care professional. If obesity is a challenge, take 30 minutes before eating.
Do not use if seal is broken. Store in a cool dry place. Close container tightly after use to prevent moisture absorption. Keep the moisture absorbing packet in the container until completely consumed. Storage in an area with high temperature can cause rapid deterioration of product.

SOLD BY WEIGHT, NOT BY VOLUME. VOLUME MAY VARY. Stir before taking. Ingredients often settle in layers due to different densities and particle sizes.

This dietary supplement is not intended to replace or conflict with appropriate professional care, treatment and management of health.
